All, Ryan Loofbourrow has agreed to speak also, he was previous the Community Services Director for Sacramento and San Diego and is now leading our regions Continuum of Care called Sacramento Steps Forward. He has a good understanding of HUD Funding and what issues regions should be working on to move the most severe and chronic individuals off the street and into a housing fist model. This model highlights the risk of leaving individuals on street and will help to highlight the death report numbers.

D

Subject: July 30 Homeless Forum

All, I have secured Jeff Kiernan from League of Cities to speak at our forum. Jeff is their Public Affairs Manager and can provide an overview of the State bills related to homelessness.

As the agenda develops we will need to loop in with more detail.

Marie
